

## Large Character Inks

# 2351/2361 Inks

### Description

Large character inks are general purpose, oil-based inks qualified for the Videojet 2351 and 2361 printers and are used to print variable information such as bar codes, dates, ingredients, logos, and graphics on cases and shipping cartons. These inks deliver high-resolution codes and are specifically designed for printing on corrugated boxes, paper, and paper board substrates. These large character printing inks come in an assortment of colors, including black, red, green, blue, yellow, orange, and purple.

### Benefits

- iQMark™ no MEK ink offering:
  - No MEK, no methanol formulation
- High-resolution (180 dpi) print quality
- Increased brand recognition, customer preference, and loyalty
- Create higher perceived value and points of differentiation, which enable premium pricing
- Communicate product use, safety, size information,
- Drive cross-selling opportunities, coupon, or special offer

### Applications

The Videojet 2351/2361 inks deliver high-resolution print quality for a preprinted look on generic cartons. Colored ink can be used to quickly and easily differentiate product grades, quality, channel details, or seasonal messages.
