Thermal Inkjet

Videojet® 8610
print sample guide

Clear, consistent codes

Delivering revolutionary printing technology for films, foils, plastics, and coated stocks, the 8610 combines the simplicity of thermal inkjet with the performance of MEK-based inks. A patented cartridge delivers print resolutions up to four times greater than continuous inkjet, providing excellent code quality for unparalleled code legibility. Multiple coding options are available from small to large character fonts and complex codes including bar codes.

Font Size	Characters	Font Size	Resolution vert. x horiz.	Codes/ cartridge	Max line speed meters/min. feet/min.

Peace of mind comes as standard

Videojet Technologies is a world-leader in the product identification market, providing in-line printing, coding, and marking products, application specific fluids, and product life cycle services.

Our goal is to partner with our customers in the consumer packaged goods, pharmaceutical, and industrial goods industries to improve their productivity, to protect and grow their brands, and to stay ahead of industry trends and regulations. With our customer application experts and technology leadership in Continuous Inkjet (CIJ), Thermal Inkjet (TIJ), Laser Marking, Thermal Transfer Overprinting (TTO), case coding and labeling, and wide array printing, Videojet has more than 345,000 printers installed worldwide.

Our customers rely on Videojet products to print on over ten billion products daily. Customer sales, application, service, and training support is provided by direct operations with over 4,000 team members in 26 countries worldwide. In addition, Videojet's distribution network includes more than 400 distributors and OEMs, serving 135 countries.
