Thermal Inkjet

Videojet® 8520

The Videojet 8520 inkjet printer offers an impressive combination of functionality and simplicity in one, compact design.

Designed to address the needs of industrial users, the Videojet 8520 thermal inkjet (TIJ) printer is the ideal coding and marking solution for a range of primary and secondary marking applications. From basic alphanumeric codes to complex bar codes and graphics, the 8520 has the capability to print a wide range of codes on fast production lines. The 8520 TIJ printer helps customers improve their productivity, quality and efficiency targets with features that include: automatic cartridge setup, temperature control and portable ink level tracking.

Uptime Advantage
- Extensive communications protocol ideal for remote control and secondary applications
- Solid-state electronics with no moving parts
- No wear items or replacement parts outside of inkjet cartridge replacement
- Clean, no-mess operation

Built in Productivity
- High resolution print (up to 600 dpi) suitable for high quality small and large font codes
- Wide range of primary and secondary packaging bar codes
- Can drive up to four printheads independently or together
- Ink level tracking that moves with the ink cartridge*

Code Assurance
- Template creation software with rules-based message fields
- Color touch screen with WYSIWYG image display to reduce set-up errors
- Selectable ink type setting ensures the right ink is being used*
- Optional USB scanner for message selection

Simple Usability
- Intuitive, graphical user interface with easy to learn icon-based controls
- Auto cartridge recognition*
- Four printhead designs to aid packaging line integration

* Feature available when using authentic Videojet TIJ ink cartridges
Videojet® 8520
Thermal Inkjet

**Line Speed / Resolution Capability**
- Maximum resolution of 600x600 dpi
- 5-360 fpm (1.5-109 mpm) at 600x240 dpi
- Higher line speeds are possible at lower horizontal print resolutions

**Printing Capabilities**
- Full downloadable font support using TrueType® fonts
- Fixed, variable and merged text fields
- Flexible date/time and shift code formats
- Auto best before date calculations
- Auto incrementing/decrementing text and counters
- Multiple graphic formats supported (up to maximum print area)

**Bar Codes**
- EAN8, EAN13, UPC-A/E, CODE 39, CODE128, GS1 DataBar (including 2D composite), DataMatrix, QR, PDF417

**Print Cartridge**
- Maximum of four 12.7mm tall, 600 dpi print cartridges (stacked/stitched or deployed independently)
- Features available with authentic Videojet TIJ ink cartridges: auto cartridge recognition and parameter setup, ink batch/lot number tracking, portable ink level tracking and enhanced print speeds

**Display**
- 8.4-inch TFT SVGA (800x600) full-color LCD and touch screen
- WYSIWYG print preview
- Full on-board diagnostics
- Three levels of password protection or advanced configurable password protection
- Extensive language support (22 in total)

**Data Interface**
- RS232, Ethernet, USB memory stick support, Text Communications Protocols

**Controller Dimensions**
- 9.6" (244mm) long
- 3.6" (92mm) wide
- 6.7" (170mm) high
- Dimensions exclude printhead, accessory cables and power supply connections

**Printhead Dimensions**
- Four printhead options are available with different dimensions to meet line integration requirements. The following dimensions are for the Standard Blue printhead:
  - 4.5" (115 mm) long
  - 4.3" (110 mm) high
  - 2.4" (60 mm) wide (at rub plate)
- Dimensions exclude cartridge and cable connections

**Temperature Range**
- 41°F to 113°F (5°C to 45°C)

**Electrical Requirements**
- 100-240 VAC 50/60Hz

**Approximate Weight (Controller)**
- 7.0lbs (3.2kgs)
