

## Thermal Transfer Ribbons

# **Rough Texture**

## Videojet Rough Texture Ribbons

- Excellent sensitivity and compatibility with rough substrates such as uncoated papers, labels and Tyvek®
- Very good print quality at high speeds; sharp bar codes at 90°
- Very good resistance to smudging and abrasion
- Excellent light resistance

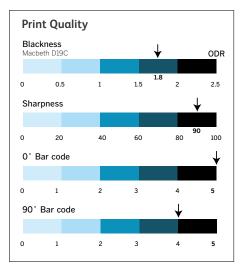

Choose Rough Texture Ribbons for printing bar codes, logos, text, graphics, batch numbers and real-time dates directly on packaging materials.

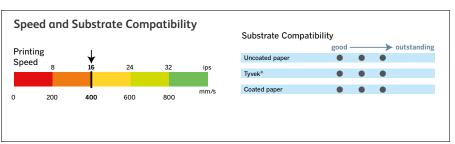

Featuring advanced backcoat technology, all Videojet ribbons help ensure excellent print quality and extended printhead life.

Videojet Rough Texture Ribbons, available in 55mm width by 1,000 meter length, are designed for optimal performance in the Videojet® DataFlex® line of thermal transfer printers.

#### Performance characteristics

Videojet evaluation of observed performances of the Rough Texture Ribbon with optimized printer setting and receptors.

## Thermal Transfer Ribbons

## **Specifications**

**PET Film** 

Thickness: 4.5µm

Backcoating

Silicon based with anti-static properties. Friction coefficient: Kd<0.2

Ink

Wax/resin blend

Melting point

80°C (176°F)

Thickness

(Black): <8µm

Maximum printing speed

400mm/s (16inches/sec)

Storage

12 months, 5-35°C (40-95°F); 20-80% relative humidity

### **Available Colors**

• (K) Black

## Certifications and approvals

#### Heavy metals

This ribbon is compliant with EC 95/638

#### **RoHS/WEEE**

This ribbon is compliant with EC directives 2002/95 and 2002/96

#### RFACH

This ribbon is compliant with REACH requirements. It does not contain the Substances of Very High Concern (SVHC).

#### **CP65**

This ribbon is free from the substances listed in the California Proposition 65 lists

#### Food contact

This ribbon is compliant with the European Directive 1935/2004/EC

#### Halogen

This ribbon is halogen-free
