

Print & Apply Labeler with Intelligent Motion™ technology

## Videojet® 9550 Corner Wrap

The Videojet 9550 Corner Wrap is a smarter print and apply labeler that is designed to target zero unscheduled downtime and can help reduce costs and errors in case coding operations.

Our Intelligent Motion™ technology automatically and precisely controls the entire system, helping to remove operational downtime often caused by label jams and snagged labels. A robust and simply designed applicator makes it easy to use, plus an integrated pack detect feature helps ensure accurate label placement.

The 9550 with Corner Wrap applicator is ideal for cases or shrink wrapped products where the label must be applied across adjacent panels so that label information can be seen in various orientations.

### Uptime Advantage

- Optimize maintenance labor by removing common wear and adjustment parts
- Built in pack/case detect sensor eliminates the need for additional components, simplifying integration and set-up
- Clean, robust design helps protect components during operation

### Built-in productivity

- Optimize print quality and printhead life with automatic printhead pressure regulation
- On-screen diagnostics help achieve OEE improvements
- Single roller wipe design eliminates applicator arm that can damage cases and cause equipment wear, as well as on-going adjustments, service and downtime

### Code Assurance

- Virtually eliminate operator errors, helping to ensure products are coded correctly with built-in Code Assurance software features
- Minimize operator touches with on-board label database for accurate job selection
- Automate bar code creation by linking data from multiple text fields
