Print & Apply Labeler with Intelligent Motion™ technology

**Videojet® 9550 Corner Wrap**

The Videojet 9550 Corner Wrap is a smarter print and apply labeler that is designed to target zero unscheduled downtime and can help reduce costs and errors in case coding operations.

Our Intelligent Motion™ technology automatically and precisely controls the entire system, helping to remove operational downtime often caused by label jams and snagged labels. A robust and simply designed applicator makes it easy to use, plus an integrated pack detect feature helps ensure accurate label placement.

The 9550 with Corner Wrap applicator is ideal for cases or shrink wrapped products where the label must be applied across adjacent panels so that label information can be seen in various orientations.

**Uptime Advantage**
- Patented Direct Apply™ technology uses simple, single roller wipe action to wrap case corners, removing unnecessary complexity and time from the process
- Optimize maintenance labor by removing common wear and adjustment parts
- Built in pack/case detect sensor eliminates the need for additional components, simplifying integration and set-up
- Clean, robust design helps protect components during operation

**Built-in productivity**
- Optimize print quality and printhead life with automatic printhead pressure regulation
- On-screen diagnostics help achieve OEE improvements
- Single roller wipe design eliminates applicator arm that can damage cases and cause equipment wear, as well as on-going adjustments, service and downtime

**Code Assurance**
- Virtually eliminate operator errors, helping to ensure products are coded correctly with built-in Code Assurance software features
- Minimize operator touches with on-board label database for accurate job selection
- Automate bar code creation by linking data from multiple text fields

**Simple usability**
- Perform label and ribbon changes in less than 60 seconds through simplest web path
- Quickly check status and select jobs with a single, intuitive interface that makes operation easy
Videojet® 9550 Corner Wrap
Print & Apply Labeler with Intelligent Motion™ technology

Application method
Direct Apply™ technology for side panel, pneumatic roller wipe for rear panel

Print technology
Thermal transfer printing with Intelligent Motion™ Ribbon Drive and Direct Thermal 5.3mm and 10.7mm printhead versions

Print resolution
300dpi / 200dpi emulation mode

Printhead health monitoring
Tool-free quick release printhead replacement

Print speed
1.6 – 19.7 inches/sec (40 – 500 mm/sec)

Throughput
Up to 68 packs per minute (depending on label size)
Recommended max conveyor speed 98.4 ft/min (30 m/min)

Ribbon specification
Width: 2.2” (55mm), 3.0” (76mm) and 4.3” (110mm)
Capacity: Up to 830m, including automatic ribbon save (<1mm ribbon gap between successive prints irrespective of label size or speed)
Low Ribbon/End of Ribbon detection with predicted changeover time built in as standard

Label specification
Label Width 1.6” to 4.5” (40mm to 115mm)
Label Length 2.0” to 11.8” (50mm to 300mm)
Capacity: Up to 400mm spool diameter (typically delivers over 9000 typical GS1 bar code labels per roll)
Low Labels and End of Label Reel detection, with predicted changeover time built in as standard
Automatic adjustment for label/ backing type and label size 400MB on-board label database, sufficient for 25,000 typical GS1 bar code label design

Print capabilities
Full downloadable font support using TrueType® fonts (including multiple languages and Unicode support); fixed, variable and merged text fields; flexible date/time formats; flexible shift code formats; auto best before date calculations and concession management; calendar rules; auto incrementing decrementing text, counters and bar codes; multiple graphic formats supported (up to maximum print area); link fields to databases; scalable text and text blocks

Bar codes supported
EAN 8, EAN 13, UPC-A, UPC-E, Code 39, GS1-128, Code 128, ITF, RSS (including 2D composite codes); others available upon request

Connectivity
Ethernet, Power-over-Ethernet, RS232, Configurable I/O (24V, PNP and volt free)
USB (backup/restore and label upload), remote control Videojet 9550 via a web browser

Communications Protocols
Compatible with Videojet CLARiSUITE™
Videojet binary and simple-ASCII protocols
Compatible with any label design software which supports Zebra or Sato print engines
Zebra (ZPL), Sato (SBPL) and Markem-Imaje (Cimcomms) protocol support

Need labels for your label applicator?
Marsh Label Technologies provides standard, specialty, and custom labeling solutions. A Videojet affiliate company, Marsh works directly with Videojet in testing and qualifying label materials to provide maximum performance for 9550 Print and Apply users.
